

What Will You Build?

Hope For The Future,
Better Communities, and
Stronger Families

MEET Olga & Jeff

As a young family with limited resources, Jeff and Olga decided that pursuing higher education was the best way to provide their children with a better life. Balancing school, work, and family has been a challenge but has paid off as Jeff is now a first-generation college graduate. During this time, they've watched housing prices rise beyond the reach of families like theirs, families who wish to settle here but cannot afford to. "We honestly assumed we were going to move away after we finished school because it seemed so unaffordable. We applied to Habitat on an impulse."

The couple was shocked when the selection committee announced the good news that they had qualified to build and purchase a home through the Habitat program. It was completely unexpected. This opportunity to own their home means security and stability for them. "With renting you never know if your rent will skyrocket or if the owner will sell the house you're living in. There is no guarantee of stability which is so important for a family. We now look forward to possibly getting a family dog and celebrating many birthdays and Christmases in our new home."

GET INVOLVED AND PUT YOUR FAITH INTO ACTION

Our mission is about tearing down walls and building bridges. It is about offering hope and transforming lives. It is about serving God by serving others.
