

VOLUNTEER OPPORTUNITY:

ReStore Appliance Tester

Calling all appliance experts! Our ReStore is looking for an Appliance Tester to join our volunteer team. We are looking for someone who:

- Has a passion for Habitat's mission
- Wants to get involved with Habitat in a new way
- Enjoys mechanical work & can lift/move heavy appliances with assistance if needed

About the role: Appliance testers support the mission of Fort Collins Habitat for Humanity ReStore by testing, cleaning, and, if possible, making small repairs to large appliances. Testers need to be comfortable working with and testing electric appliances such as Refrigerators, stoves, washer and dryers, and dishwashers. Any experience the tester has with small repairs would be a great bonus for us.

Time Commitment: All Habitat ReStore Volunteers are required to attend a 1-hour orientation to learn about Fort Collins Habitat, current projects, and expectations for their role. From there, we would like testers who can be here 3-5 days a week for at least 2-4 hours. Times are flexible.

About the ReStore: The ReStore is a thrift store operation that serves as a fundraising branch of Fort Collins Habitat for Humanity. Through accepting donations from the community such as cars, furniture, appliances, building supplies, and more, the ReStore raises money to support Habitat's mission of providing affordable homeownership opportunities in partnership with local families.

Interested in joining the Habitat ReStore team? Contact Rae Russell, Volunteer & Donations Coordinator, rrussell@fortcollinshabitat.org.
