

# VOLUNTEER IMPACT

## 2021 IN REVIEW

This past year, volunteers went above and beyond to help us **build the change** and make HOME possible in Fort Collins! Here are some of the amazing things we accomplished together:

**11,900+** Hours served by volunteers **across the organization.**

**78** Volunteers who helped with **ReStore renovations**, gearing us up for our Grand Re-Opening in 2022!

**36** Groups who raised a hammer and helped us **build at Harmony Cottages.**

**6** Committees **supporting operations**, such as homeowner selection, faith engagement, and fundraising.

# TESTIMONIALS

**TRACI**  
**FUTURE HABITAT HOMEOWNER**

**What has been most the most meaningful piece of working with volunteers?**

*"The most meaningful thing about working with volunteers is the relationship I can build with others within the community. The fact that these volunteers are willing to spend time to give back to their community speaks volumes about them...I have lived in various places throughout my life and have not experienced a community like there is here. **For the first time, after working with the volunteers...I feel as though I am part of something bigger and have more of a purpose.**"*

**MONTY**  
**RESTORE**

**Why do you volunteer with Habitat, and what got you involved?**

*"I started volunteering for Habitat because it helps communities get families into homeownership, which provides security and stability not just for the homeowner, but for the community at large...And the ReStore provides several services- it sells great items for a much more reasonable price, provides jobs and volunteer opportunities, keeps perfectly good items out of the landfill, and financially supports the homes being built. **This is an organization that walks the talk.**"*

**RAPHAEL**  
**CONSTRUCTION**

**Why do you volunteer for Habitat?**

*"For many years I have felt a desire to use my creativity and building skills to the service of others. Not only does Habitat offer that, but **we get to meet people from all walks of life and cultures, learn new skills from pros and have the opportunity to share that with others, and overall have fun on a weekly basis** thanks to the great, welcoming staff and always motivated group of volunteers. It is always so rewarding to see volunteers get the hang of things... Though I loved snow days back in school, now they are bad news when they make me miss my weekly 'rest day' with Habitat!"*
